GETTING STARTED

Remove all components from the package. Items in the pack include: – PMR Bluetooth headset with Ear Hook, Ear Cap, User Guide, Lanyard (optional) & Mains Adapter. Please check the contents carefully and contact your local dealer immediately if there are any shortages.

GETTING TO KNOW YOUR HEADSET

Please note some models of headset will differ slightly in style and the functionality may vary on certain models according to their specifications.

CHARGING YOUR HEADSET

Before using the headset, you must charge the headset for approximately two hours. When fully charged, the battery provides up to 5 hours of talk time and up to 100 hours of standby time

Please note talk time is also a function of the mobile phone and factory determined settings of the phone so you may find this figure is reduced under certain conditions.

To charge the headset

- Plug the AC adapter into the headset.
- Plug the AC adapter into a wall outlet. When the headset is charging, the amber LED will light up.
- Unplug the charger cable from the wall outlet and the headset when charging has finished, the amber LED will turn off or be dim.

Battery Indication: The amber LED can turn off after 2/3 hours charging. This will indicate that the Headset can be used, however it is recommended that the user charges for a full 2 hours in order to fully charge the battery for normal operation.

PAIRING THE HEADSET TO YOUR MOBILE PHONE

Pairing is the process of linking the headset with your Bluetooth mobile phone. Before you use the PMR headset with your mobile phone you must pair the devices. After this process is completed, you can use the headset only with its paired mobile phone. If you wish to use the headset with a different mobile phone, you must repeat the pairing process with the new mobile phone. In this case, the headset will no longer work with the original mobile

phone. Please refer to the user manual of your mobile phone for further information on 'How to Pair'.

Before you pair the headset, ensure that the battery is fully charged and that your mobile is switched on and it is in discoverable mode..

To pair the devices

- With the headset turned off, press and hold the TALK button for five seconds. The blue and amber LEDs will flash alternately, and you will hear the PAIRING tone.
- Release the TALK button. The headset is now in Pairing Mode.
- Turn on the mobile phone and place it within 10 feet of the headset.
- Initiate the device discovery feature on the mobile phone.
 Refer to the mobile phone user guide for instructions for initiating this feature.
- 5. When prompted by the mobile phone, enter the headset pin code 0000. When pairing is complete, the blue LED on the headset will flash at one-second intervals and the headset will be placed in standby mode, ready to make and receive calls. Please note if battery is low then amber light not blue light will flash.

If disconnection or lost link occurs, it maybe due to the following reasons:

- The range is over 10 feet between both headset and the mobile phone.
- b) Mobile phone disconnected the link to conserve power or enable other function.
- c) Either device has been switched off.

Note: The headset, in normal operation, should maintain the connection with the mobile phone at all times once the pairing mode and connection has been established between the two devices.

To cancel pairing mode - While you are in pairing mode, you can cancel the pairing process and turn off the headset. Press and hold the TALK button for three seconds. *Both LEDs will turn off and you will hear the OFF tone*.

FITTING THE HEADSET ON YOUR EAR

The PMR Headset is designed to fit comfortably in your ear. The ear hook can be rotated on its axis allowing you to position on right or left ear. Please note the ear hook is designed such that it can fit over the ear or under the ear as well as right and left ear.

To place the headset on your ear - Place the headset speaker in your ear with the microphone angled towards your mouth. The headset should fit snugly in your ear. However, if the speaker is too small for your ear, you can change to other size of the ear cap that is provided with your headset.

To add the ear cap - Stretch the ear cap around the end

of the speaker.

To add the **Optional Lanyard** - simply connect via the small hole at the base of the ear hook.

WARNING – It is possible to remove the ear hook and replace but for normal operation and fitment this is NOT necessary. Simply rotating the ear hook on its axis will allow easy fitment to the ear.

POWERING YOUR HEADSET

To turn on the headset - Press and hold the Talk button for four seconds. You will hear the ON tone. The headset turns on and is placed in standby mode, ready to make and receive calls.

To turn off the headset - When the headset is on, press and hold the Talk button for four seconds. You will hear the OFF tone. The headset turns off.

MAKING CALLS

You can make calls from your mobile phone, or directly from the headset using voice dialing commands (if this feature is supported by your mobile phone).

To make calls from your mobile phone - Dial the call from your mobile phone. Dependent on your mobile phone settings the call is automatically connected to your headset.

To make calls using voice dialing (if supported by your mobile phone) - Press the Talk button on your headset. Speak the name of the person you wish to call. The call is automatically connected to your headset.

RECEIVING CALLS

You must configure your mobile phone to answer calls directly on your Bluetooth headset. Refer to the mobile phone user guide for instructions for initiating this feature.

When your mobile phone rings, press the Talk button on your headset. *The call is automatically connected to your headset.* Please note you can also **Reject calls** by depressing the talk button for about 3 seconds. (Not all phones support this feature)

ENDING CALLS

When you have finished your call, press the Talk button on your headset. *The call will be disconnected.*

TRANSFERRING CALLS

You can transfer calls connected to your headset back to your mobile phone, or from your mobile phone to your headset. (Not all phones support this feature)

To transfer calls from your headset to the phone or from the phone to the Headset press the talk button for about 3 seconds until you hear the tone.

ADJUSTING THE VOLUME

To increase the volume - Press (click) the top of the Volume

button + to increase volume by 1 step, repeat this procedure until you have reached the desired level.

To decrease the volume - Press (click) the bottom of the Volume button – to decrease the volume by one step, repeat this procedure until you have reached the desired level.

MUTING THE HEADSET

You can mute and un-mute the microphone temporarily so that you cannot be heard by the connected party.

To mute the headset - Press and hold the Volume up button for three seconds.

To un-mute the headset - When the microphone is muted, press and hold either Volume button for three seconds.

VOICE DIAL

Press the talk button when Headset is not on a call, a voice prompt will be heard. This is also a phone dependent feature.

LAST NUMBER REDIAL

Certain models only may have this feature. Depress either volume button when headset is not on call for about 3 second interval and this will enable the phone to provide last number redial or alternatively press both volume up and down together.

VISUAL INDICATORS

Visual Indicators - Two LEDs (blue and amber) indicate the status of the headset:

Status	Indication
Battery 2/3 full	Amber LED is off or dim
Battery low	Amber LED on instead of Blue LED
Headset off	Both LEDs are off
Headset in standby mode, ready to make & receive calls	Blue LED flashes at 1 second intervals
Headset in pairing mode	Blue and amber LEDs flash alternately.
Headset making connection audio connection for voice dial	Blue LED twice quickly at 1 second intervals
Headset in talk mode	Blue LED flashes four times quickly at one second intervals

TROUBLESHOOTING

Please note that you should also be familiar with the operation of your mobile phone and how to connect to Bluetooth devices. Please read your mobile phone user guide carefully. Please note that the Bluetooth headset will only work with Bluetooth mobile phones. For operation with a PC or laptop device please note that these devices should also be Bluetooth enabled with appropriate third party software in order to enable correct operation.

Symptom/Problem	Solution
When Talk button is pressed, no LED indicator	Unit not chargedConsult authorized dealer
Headset powers on with blue LED flashing but no connection to mobile phone	Check unit is paired to phone. Check settings in phone. Headset default name is BTHS Check phone is switched on Check handsfree settings for phone Ensure headset & phone are within range
Headset does not charge	Check mains charger adapter is connected to the headset securely & is switched on Check mains charger is working using another device
	Consult authorized dealer
